Mohali, India

Software Engineer with 5.5+ years of experience building and maintaining web applications in the financial data domain. Skilled in Angular, TypeScript, JavaScript, SQL, and internal business applications. Worked on developing new features, upgrading applications, building internal tools, and supporting analytics platforms. Enjoy collaborating with cross-functional teams to solve problems and deliver practical solutions.

Education

- **University Institute Of Engineering & Technology, Panjab University** — Mohali, India
  Bachelor of Engineering - Information Technology; CGPA: 8.67 — *2017 – 2021*

Skills Summary

- **Frontend**: Angular (v2+), TypeScript, JavaScript, HTML5, CSS3, RxJS
- **Styling**: TailwindCSS, Bootstrap
- **Backend & Data**: SQL (MySQL), REST APIs, Node.js
- **Tools**: Git, GitHub, Docker, Postman, Retool (Low Code)
- **Testing**: Karma, Jasmine
- **Analytics**: Apache Superset, Mixpanel, Datadog
- **Cloud & DevOps**: AWS Services, GitHub Actions, CI/CD
- **Soft Skills**: Mentoring, Team Collaboration, Documentation, Problem Solving
- **Familiar**: React, Go, GraphQL, gRPC

Experience

- **Zversal Private Limited** — Mohali, India
  Senior Frontend Developer — *June 2021 – Present*
  - Built and maintained Angular applications in the financial data domain, focusing on performance, scalability, and user experience.
  - Led framework upgrades across applications, including migration from Angular v7 to v13 and subsequent version updates.
  - Developed and enhanced internal business applications using Retool, helping streamline QA, operational, and business workflows.
  - Built analytics dashboards using Apache Superset and leveraged Mixpanel and Datadog to monitor product usage and application health.
  - Modernized frontend architecture by adopting TailwindCSS, maintaining AngularJS applications, and implementing code quality practices using ESLint, Prettier, Karma, and Jasmine.
  - Contributed to deployment and development workflows through GitHub Actions, CI/CD processes, and AI-assisted development tools.
  - Collaborated closely with business stakeholders, designers, and engineering teams to understand requirements and deliver practical solutions.
- **Zversal Private Limited** — Mohali, India
  Angular Developer Intern — *January 2021 – June 2021*
  - Contributed to development of an Angular application *Market Data on Demand* from scratch in collaboration with UI/UX and backend teams.
  - Worked on feature enhancements and bug fixes in an existing application *Vendor Management Project.*
  - Integrated REST APIs and tested endpoints using Postman.
  - Maintained technical documentation using Markdown and version control using Git and GitHub.

Projects

- **Market Data on Demand** — Angular, GraphQL, Node.js, Go — *Jun 2021 – Present*
  - Financial data platform delivering end-of-day market data to users and exchanges.
  - Initiated the project from scratch with a focus on scalable and modular Angular architecture in close collaboration with UI/UX and backend teams.
  - Continued maintaining and enhancing the application post-launch, adapting to evolving business requirements.
- **gRPC Service Management Tool** — Retool, gRPC — *Aug 2024 – Present*
  - Internal tool built on Retool to streamline gRPC service requests across QA and operations teams.
  - Improved cross-team coordination and significantly reduced manual effort in managing service requests.
- **Vendor Management System** — Angular, Java, SQL — *Jan 2021 – Present*
  - Vendor and client data distribution system managing user access to financial products between users and exchanges.
  - Contributed to feature enhancements, UI improvements, and bug fixes.
  - Maintained application compatibility through multiple Angular version upgrades over time.
- **Agreement App** — AngularJS 1.x, Java — *Oct 2022 – Apr 2024*
  - Client-facing application enabling users to fill out and submit agreements and receive authorization updates from exchanges.
  - Delivered enhancements and bug fixes on a legacy AngularJS 1.x codebase while ensuring continued stability.

Languages

- **English, Hindi, Punjabi**: Full Professional Proficiency

Interests

- **Hobbies**: Reading Fiction/Nonfiction, Singing, Listening to Music, Movies, Badminton
